## Indies Win First Game

The Grayling-Alfred-Hanson Independents won their first basketball game of the year at Houghton Lake Sunday night when they downed a fighting Marion squad 38 to 36.

Grayling with only one practice session under their belt, was called upon on quick notice to fill out the bill of a double header game there as Houghton Lake met the traveling Comedy Kings and another team was needed to meet Marion.

Grayling's scoring was led by Guard Ed Smith who with the game tied 36 and 3 seconds to play uncorked a pass the length of the floor that was supposed to be taken by Clyde Anthony who had moved down the floor, the ball by accident went through the hoop for two points and a Grayling victory.

Dick Miller, former Grayling High star who has returned to the city added 8 points with Anthony and Bob Knutula, a new recruit, each adding 4 and Sandy Thompson, Hank Feldhauser and Dick Atkinson each scored a two pointer.

The team is practicing each Wednesday night at the school and expects to start regular play very soon. Anyone interested in trying out for the squad is welcome to the weekly practice sessions.

## Vikings Drop Season's Final Game To Marion, 32 to 0

The Grayling High Vikings closed out their 1952 football season by taking a 32 to 0 defeat at the hands of Marion High at the local field last Friday afternoon. The contest was a rough and rugged battle as 12 fifteen yard penalties were called for unsportsmanship and unnecessary roughness. The Marion team just had too much speed and power for the local 11 to cope with and thus the overwhelming victory went to the visitors.

The loss of the season's final game gave the Vikings a season's record of one victory, one tie and five defeats.

In the pre-game celebration Thursday evening, the team co-

## Form Advisory Council For New Mercy Hospital Building

An advisory council for the construction of a new Grayling Mercy Hospital was formed at a meeting held at the Nurses Home on Peninsula Street last Tuesday evening with Dr. C. R. Keyport being elected as its chairman.

Another meeting of the council is being held this week at which a number of committees will be named, it was said. The council was brought into being as a result of a meeting held on October 9 at which Sister Mary Stella, superintendent of the Hospital attended along with Sister Mary Reginald, representing Mother Mary Carmelita, the Mother Provincial of the Sisters of Mercy, Father John Breitenstein, Dr. C. R. Keyport, Dr. B. Elmore Henig and Dr. Louis F. Hayes. This smaller group discussed the steps to be taken to obtain the much needed new Mercy Hospital. A decision was reached to form the Advisory Council.

About twenty men from Grayling, Roscommon, Kalkaska and Higgins Lake were in attendance at last week's meeting. Dr. Henig opened the meeting by giving a

history of the present hospital, pointing out that it was originally set up as a 17 bed hospital and now was caring for an average of about 44 patients. He introduced Dr. Keyport who talked further about the coming project and introduced Sister Mary Reginald who has been active in the construction of several new hospitals in Indiana. Sister Reginald handed out a mimeographed sheet which gave each step of operation in obtaining a government grant toward the construction of a hospital here. She then went over the sheet step by step explaining each item and answering questions about it.

Following Sister Reginald's talk Dr. Keyport was elected as chairman of the group and he laid out a systematic setup of committees to work on the project. The plans call for a co-chairman and co-chairwoman, a building committee and a finance committee.

The group then discussed the plans and it was decided to call another meeting this week at which time members of the two committees would be named.

## S. D. A. Church Organizes Here

Local Seventh-day Adventists were officially recognized and organized into the Grayling Seventh-day Adventist Church Saturday afternoon, November 1, under the leadership of Elder G. E. Hutches, president of the Michigan Conference of Seventh-day Adventists.

Elder Hutches in the church service presented a stirring message on the great struggle between Christ and Satan from its beginning down to the present emphasizing the importance of Choosing Christ and His way. He then asked for a show of hands of those desirous of uniting with the about-to-be-organized church and had them register as charter members. The group was then officially recognized as a church and church officers were elected.

Since the 46 members and visitors were amply seated, it is planned to continue to meet at 306 Park Street until such time as is seen fit to provide a regular church building.

"It is nothing new for a church to meet in a house," Elder W. Hyde pointed out, "for in the New Testament there are three churches mentioned which met in private homes."

The newly organized church brings the total number of churches in the Michigan Conference of Seventh-day Adventists to 157 and the membership to nearly 13,000.

Fred M. Alger in latest returns Wednesday morning was running about 70,000 votes ahead of the incumbent

Elford Cederberg, Mayor of Bay City held a wide margin for United States Representative from the Tenth District over his Democratic opponent William Kelly. State Senator Charles Prescott was assured of re-election in the Twenty-Eighth District over Forest Wyckoff of Roscommon. Emil Peltz of Rogers City, State Representative from the Presque Isle District which includes Crawford County was unopposed, but was rolling up a big vote on the Republican ticket.

## Rob Two More Grayling Stores

Two more Grayling business places were entered and robbed last week as thieves entered the Sales 5c to \$1 store and the Grayling Restaurant. About \$75 was taken from the two Grayling business places, according to Sheriff William F. Golnick, who investigated the robberies along with City Police and State Police.

Entry was made into both of the places from the alley to the rear of the buildings. The thieves went into the Sales Store through a coal chute which they kicked open and entry into the Grayling Restaurant was made through a rear window to the rear of the building.

The three pronged investigation is still being pushed by the law officials. These two robberies have all the earmarks of having been pulled off by the same thief or group that have already hit a number of Grayling businesses, the law officials said.

## Deer Season To Open Next Saturday, November 15

## Early Snow May Improve Hunting

The whitetail deer will be the big target of hunters next Saturday, November 15 when deer season opens for its full run of 18 days.

Early snow and cold weather are expected to aid the deer hunter, but, those with thoughts of a possible shot at a bear will face vastly impaired hunting as it is expected that the cold wintry blasts will hasten bruins' ideas of hibernating for the winter.

Just what the deer hunters will find as they take to the hills, swamps and woods is a matter of

deep argument. Many feel that the deer herd has been depleted during the past heavy two winters, others say that as many deer as ever are to be found in the woods.

The score run up by hunters on bucks taken should give some idea as to what the deer herd size is.

There is no change in the hunting fee this year with the resident hunter paying \$3.50 for his license while the out of state must ante up \$5.00.

Starting next Monday it will be unlawful to be in the woods with any rifle larger than .22 caliber, or with a shotgun with buckshot, ball or slug load or cut shells.

Michigan is still catching its breath today after the excitement of Tuesday's election.

Now comes a period when the crestfallen experts explain why their predictions were wrong, why the vote went the way it did. Other experts, who were more fortunate on their sooth-saying, will devote equal time and energy to explaining their success. The public will be looking back on Tuesday's nationwide drama but the winners in the great poll are looking ahead to January.

The public has been overtaken on political speechmaking by the drums being thumped late Monday night. John Q. and his Missus are glad to give their eardrums a rest for a while.

The politicians are equally happy for a period of rostrum silence. The defeated ones are licking their wounds and are in no mood for public speaking. The victorious ones have a lot of planning to do before taking over their elective offices next year.

Even newspapermen want a change of pace.

It's good to give newspapermen and ink emphasis to the prospects for deer season instead of the Gallup poll. It's refreshing to concentrate on the Wolverines and the Spartans instead of the Dems and the GOPs.

So this column today is a breather, a compendium of miscellaneous Michiganiana absolutely guaranteed not to have any vital bearing upon the destiny of our nation.

Keeweenaw County, Michigan's northernmost area, had a total of only 70 sales tax returns filed for August this year. Wayne County, down in the opposite corner of the state, had 38,145. Lowest number of returns filed by a Lower Peninsula County was the 123 out of Kalkaska. All told, 117,339 retailers paid sales tax in August for a total of \$19,295, million.

## Secondary Deer Food

To prevent scenes like this—deer stripping reachable jack pine browse and then slowly losing out to starvation—is the conservation department objective in liberalizing the hunting of deer this fall. Either sex deer can be taken the last three days (Nov. 28-30) of the regular buck season (Nov. 15-30) in the northern lower peninsula. Whitetails prefer ground hemlock, white cedar, hard maple and yellow birch. With these species heavily browsed out, deer turn to jack pine and even less nutritional browse. Spruce, shown on right, is inedible.

choose between Proposals 2 and 3 in the polling booth Tuesday, just hang on to your hats!

Things will be much more confusing if and when Michigan has a Constitutional convention.

Governmental theory is, at best, never a simple issue. It's bad enough when administered in a dose as small as we took Tuesday. When a whole Constitution is up for debate, there will be plenty a Michigander who'll seriously consider giving the two peninsulas back to the Chippewas.

The "Frankenmuth Plan" is spreading farther and farther from the town that chicken dinners made famous.

The plan sets up a game sanctuary in every section of Frankenmuth Township.

Farmers voluntarily post certain suitable areas of their farms and forego the right to hunt on that part of their own property. The result is that hunting pressure is relieved on a local basis and game and birds are not driven far out of the area.

Local conservation clubs police the plan with pressure of public opinion the only penalty. "In the past five years there hasn't been a single violation," says Clyde Elrich, a veterans sportsman, conservationist and originator of the plan.

Have you checked your bank balance lately, Dad? Michigan retailers predict that the Christmas shopping season will start earlier than ever this year.

"We have to start our promotions in self defense," says an up-state merchant. "The big mail-order houses get their holiday catalogues out earlier every year and we have to protect our local business."

Remember not so many years ago when FDR moved up Thanksgiving to the Yuletide shopping season could be a week longer?

Michigan ski-lift proprietors report that what used to be an off-season—Summer—has proved not so "off". They offered lift rides to warm-weather tourists who got an invigorating ride and a chance to see scenery they'd miss if they stuck to the highway.

Skiing and winter sports are expected to bring almost \$25 million into Michigan cash registers this season. There will be over a quarter million ski enthusiasts visiting the state.

With the proposed Straits of Mackinac Bridge so close to reality that announcement of the actual start of construction is expected any week, Michigan will have another tourist attraction that should lure visitors from all over the country.

Michigan's younger cooks are already trying new recipes for cherry pies. Formal announcement of the annual state cherry pie baking contest isn't necessary to stir interest in this event which annually draws more and more young women between the ages of 15 and 20. Prizes this year will be more valuable than ever before.

Mr. and Mrs. Tim Webb of Flint was in town one day last week en route home from Meadowbrook Hospital in Bellaire where her brother, George Palmer, is at present.

The Sunday School children around 40 attended a Halloween party Thursday night at the Jesse Pratt home. Some were in costume. Games were played. Lunch was served and the report is they

cash rental in Michigan is \$3.97 per acre.

So says the U. S. Bureau of the Census. The average rented farm is 73.8 acres and a total of 3,876 million Michigan acres are being rented.

A national columnist who pun-dits on the proper use of words now says residents of this state are properly known as Michig-anians. So far at least most Wol-verines call themselves Michi-ganders although Michiganites is becoming a more common term.

High school driver training programs pay off. Students trained in Michigan schools have a driving record at least four times better than those who learned to pilot the family chariot by trial and error.

Familiar headlines you can expect to see often before the Legislature convenes in January: FINANCIAL PROBLEMS PLAGUE LANSING.

Editors could save their printers' time by storing that type; it's the same before every legislative session.

Local governments, too, have their fiscal dilemmas. So watch for more action along the lines the City of Saginaw followed last year.

There an income-profits tax was passed that levied 1% on all pay-rolls in the city. One object was to tax the "daylight citizen," the person who lives in the suburbs, works in the city and gets all the benefits of municipal services without paying for them.

The tax was voided on a technicality of the ballot by the State Supreme Court.

Other cities, watching the case intently, can be expected to benefit from Saginaw's error as they lay plans for similar taxes.

## No Substitute . . .

The political planners are always trying to "legislate" changes in the ancient, natural law of supply and demand. But that law seems to have a habit of keeping right on working, despite all the orders and regulations and pronouncements that come out of Washington.

The experience with meat prices during a very recent five-week period offers an interesting example of this. During those weeks, all wholesale meat prices declined and all reached levels below the legal ceilings. The result was better buys for the consumer at retail. Prices for the popular cuts generally have been under those of a year before.

There is nothing mysterious and nothing arbitrary about the law of supply and demand. To put it simply it works like this: When the supply of any commodity increases without any widespread increase in demand, the price tends to drop; when, on the other hand, the supply diminishes without an equivalent decrease in demand, the price tends to rise. And that is the reason why, in the case of products such as meat whose supply is strongly influenced by seasonal changes and conditions, the price we pay varies to a considerable extent in the course of a year.

That also indicates why political price controls, long enough continued, can actually stimulate inflation rather than minimize it. As world-wide experience shows, controls eventually discourage the producer and lead to a decrease in production. They breed scarcity. And when that happens, prices always zoom, no matter what man-made law says, and more of the affected commodities pass out of the legitimate channels of trade and are diverted to the black markets.

The law of supply and demand has been in effect since civilizations began. An almost endless number of substitutes for it have been tried — and all have failed.

There's a trim bundle of eager high-powered energy that's just the ticket for you — a spirited automobile that can give you thrill after joyous thrill, for mile after fleeting mile. Why not come in and try the Buick we have in mind?

The excitement starts with your first look at it, your first sitting in it, your first fingering of its slender wheel.

But wait till Dynaflo Drive\* begins working its magic — and its constant and complete smoothness fills you with never-ending wonder.

Wait till you feel the bubbling exuberance

of taking your first hill with a high-compression Fireball 8 Engine doing the honors. That's when you get a man-sized sampling of the tremendously able and instantly responsive power you command here.

Wait till you feel the serene satisfaction of skimming over rough roads, cobbles or ridged crossings. That's when you know, better than words can tell, what a million dollars' worth of ride engineering can do in the way of magnificent comfort.

Wait till you jockey into a real tight parking space and note the fun and ease that Power Steering\*\* brings to a once-tough job.

But—why wait?

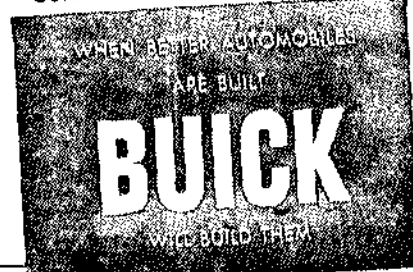

There's a Buick that can do all this — and more, far more — all ready for you to try it.

And listen: If you can afford a new car, you can afford a Buick.

How about coming in this week for a real sampling of this joyous travel?

## Left Ham Sandwich

-40¢

Ambled over to Bob's Restaurant Tuesday for lunch and noticed a new sign "Left Ham Sandwich, 40¢... Right Ham Sandwich, 30¢."

"Why the sign, Bob?" I asked. "Don't tell me you believe hogs scratch more with their right leg than with their left—so's the left ham is more tender?"

"No," he says. "I don't take any stock in it. But, some people have ordered those 'left' sandwiches. When I explain to them that there's nothing to that fable, that the sign is just a business-getter, and I've only one price, they enjoy

a regular, old fashioned, plain ham sandwich all the more!"

From where I sit, stories like "right" hams being tougher than "left" ones are with us because some people get ideas into their head and hang onto them for dear life. It's like those who think an adult like myself hasn't the right to a glass of beer with my supper. I say let's keep our opinions free from being "sandwiched-in" by misinformation.

## THE SAFETY PROBLEM

Countless thousands of words have been written and spoken on safe hunting practices. And despite all the warnings, carefully outlined safety rules, and repeated instructions to young hunters, it's a pretty good bet that 25 people will be killed by gunning accidents and another 150 injured in Michigan before the year is out. One of them might be you, or me, or our next door neighbor. Absurd, you say? The more I see of hunters the easier it is to understand how accidents happen.

### Are You a Safe Hunter?

If you hunt with other persons does your gun ever swing directly toward your companions? You may say, "Certainly not" ... but double-check yourself before you answer. I doubt if it's possible to go through a day of hunting, particularly in heavy brush, without that gun aiming—unintentionally, of course—toward your partner. This can happen despite any reasonable precaution, and it probably happens for only a fraction of a second. It's not serious unless certain other factors are involved.

An amazing number of hunters who think they're following safe practice in the field actually hunt with the safety slide or button on their gun in the off position. This is particularly true of partridge hunters who are always trying to save the split second which seems to mean so much in hitting these fast-flying birds. Apparently they don't

realize that the release of the safety takes no extra time at all—merely requires a bit of practice to automatically push the slide or button as the gun is raised to the shoulder.

Manufacturers have designed and installed safeties for easy manipulation, either with the trigger finger, or the thumb clenched over the stock in a very natural and normal grip. Why ever hunt with the safety off? You can't afford to even try to think of a reason! Disaster may be in the next step if that safety is off!

### Deer Hunters Guilty

It's a frightening fact that deer hunters are guilty of the same inexcusable violation. I have seen deer hunters sitting in a blind, their gun leaning precariously beside them, with the safety off! Surely the element of time can't be their excuse, because they're not exactly snapping at a deer blind! Long, careful aim is the normal procedure. Yet there's the gun, safety off, ready to kill at the touch of a hair-trigger.

"Accidental discharge of the weapon" is the way too many hunting casualty reports will read this year ... accidental discharge purely because the safety on the gun was in the off position when no shooting was intended!

So make it a cardinal rule with yourself: NEVER push that safety to the off position until the moment before you deliberately pull the trigger. And DON'T hunt with anyone who doesn't obey the same rule. There's a sure way to make it safer in Michigan Outdoors this year!

## Food Cost May Go Even Higher

Agricultural economists at a Michigan State College are singing on a sour note when it comes to food costs. They say that food costs are high, but they may go higher. But you don't have to sing the blues with them if you buy wisely.

And a note of hope comes when the economists predict that meat prices in 1953 will probably be about the same as this year. The U. S. Department of Agriculture reports meat production is on the increase with slightly more beef than pork recorded.

Canned fruits and vegetables are likely to stay about the same in price, too. The pack this summer and fall was slightly lower than last year, but carry-over stocks will keep prices on an even keel.

The MSC economists predict advancing prices for canned and frozen fruit juices, however. Supplies are low, they say. Homemakers may expect fresh citrus fruits, oranges in particular, to stay at the 1952 price average because a good citrus crop is reported.

Applying these economics to your own pocketbook and table means you should spend your food dollar with care. Watch reports for plentiful, less-expensive foods in your markets. For instance, the U. S. D. A. reports that in Michigan the best buys are Michigan carrots, cauliflower, most apples, squash, and western lettuce.

Moderate-priced items in your markets now are Michigan celery, most greens, topped beets, snap beans, Honeydew melons, onions, peppers, potatoes, rutabagas, sweet potatoes, tomatoes and bananas.

The Indian practice of scalping was not ordinarily fatal, according to the Encyclopedia Britannica.

The U. S. Supreme Court returned only 110 opinions last year the lowest number in 25 years.

## Free Methodists To Observe Special Sunday

"Christian Missions—the World's Hope" is theme for Men and Missions Sunday which will be observed at the local Free Methodist Church in Grayling, Nov. 9, according to the Rev. Don Cleveland pastor. This marks the 22nd annual observance of this day for promoting missionary programs in which 29 different denominations have participated.

Free Methodist missions expanded to another field in the past year by opening work on the island of Formosa. This brings to 20 the total of fields in which the church has mission work. During the past year 17 young people have sailed to fill foreign appointments on Free Methodist fields with another preparing to sail soon.

According to Dr. Byron S. Lamson, general missionary secretary, gains have also been noted among native personnel on the fields. Twenty new stations have been organized and 120 native evangelists and pastors have begun active work this year. Membership figure for the native church exceeds 20,000.

A special program has been planned by the local church on the theme of the day. The public is invited to attend all services.
